Instant Face Lift

Hello, my name is Roxana Pacely and I am a licensed aesthetician. I have been practicing skin care for eight years.

Recently my best friend introduced me to the world of BeautiControl. I have been really impressed and pleasantly surprised with the quality of the products which ultimately takes priority over anything with me. What a change that brought to my life!

Speaking of the quality of the products, I have enjoyed using the **BeautiControl Microderm Abrasion crème** treatment for my clients at the salon.

This crème is an extraordinary epidermal-resurfacing product. With the exfoliation of the dead skin cells found in the stratum corneum (the top layer of the skin), the results that are achieved are often the same as, or superior to, those seen when a traditional Microderm Abrasion machine has been used – *yet without any intense redness, irritation, or high cost!*

The fee that I charge for a 90-minute Microderm Abrasion Facial Treatment using BeautiControl Microderm Abrasion System is \$130-\$150.

The key is in the crystals. Those in the **BeautiControl Microderm Abrasion** crème are more crystalline in shape, speeding up the exfoliation process while helping to rapidly fade age spots, blemishes, and scarring.

I highly recommend BeautiControl Microderm Abrasion System for anyone wishing to have smoother, more vibrant, younger-looking skin!

Sincerely,
Roxana Pacely
Licensed Skin Care Specialist

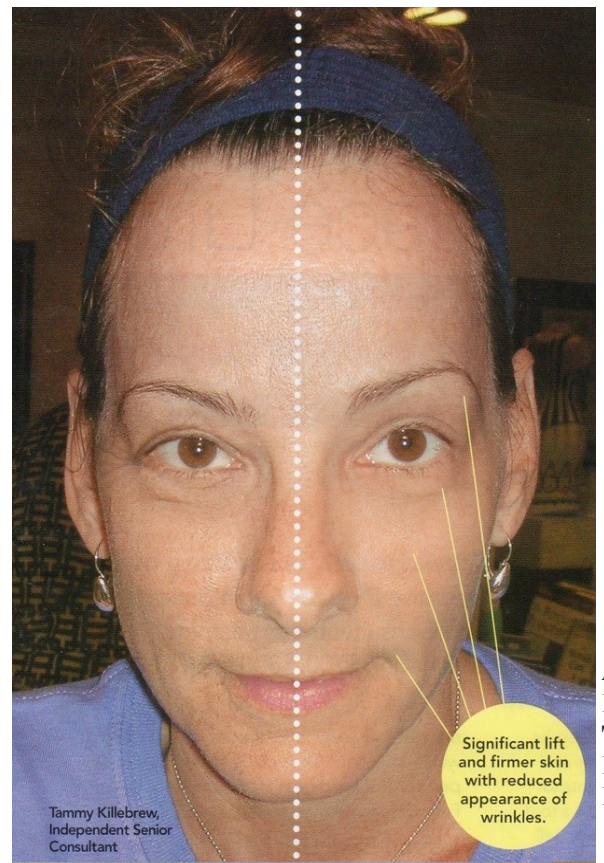

I just tried the chemical peel for the first time & was amazed at the results! My face has a lot of sun damage & freckles that look like age spots now that I've gotten older. The peel drastically reduced them & lightened the ones that remain. My skin feels so much softer & smoother. I recommend that every consultant try this product & recommend it to their customers with a money back guarantee (a very safe bet). Thanks Anne for introducing me to these wonderful products.
